

# Fabulous Flash!

Enhance web pages, e-portfolios and animation modules by developing user interfaces and Flash animations.

## Outline:

This course is an introduction to ICT, Media and Art teachers who want to deliver this application to students. It is aimed at beginners.

## Aims:

- Get to grips with the illustration tools.
- Learn text and object editing.
- Create animations which will fulfil criteria of many exam board specifications.
- Learn to use layers effectively.
- Create buttons and develop animation techniques with the use of sound.
- Learn how to export files to other applications.

## What Does it include?

- A free resource CD. It will include reference material and resources including instructional videos produced by the trainer. These videos are ideal for inclusion on your Learning Platform or for use on your interactive whiteboard.
- Printable worksheets for use in the classroom
